Key Goal: Streamline Operations • Enhance Customer Experience • Improve Efficiency

Courier Management System

User Personas & Pain Points Ideation Board

Key Personas | Frustrations & Goals | Designed for Better Delivery Experience

1. SENDER

Alex • Small Business Owner

Frustrations:

- No real-time tracking - unsure where package is
- Unclear delivery costs & hidden fees
- Packaging damage & lack of updates

Goals:

- Easy booking & label printing
- Transparent pricing & instant cost estimate
- Automated notifications to keep customers informed

2. DELIVERY AGENT

Sam • Delivery Agent

Frustrations:

- Overloaded routes & poor route planning
- App is slow/offline in low signal areas
- Customers often unavailable on first try

Goals:

- Optimized routes to save time & fuel
- Quick easy delivery confirmation via scan
- Fair workload & clear earnings/pay

3. ADMIN MANAGER

Morgan • Admin Manager

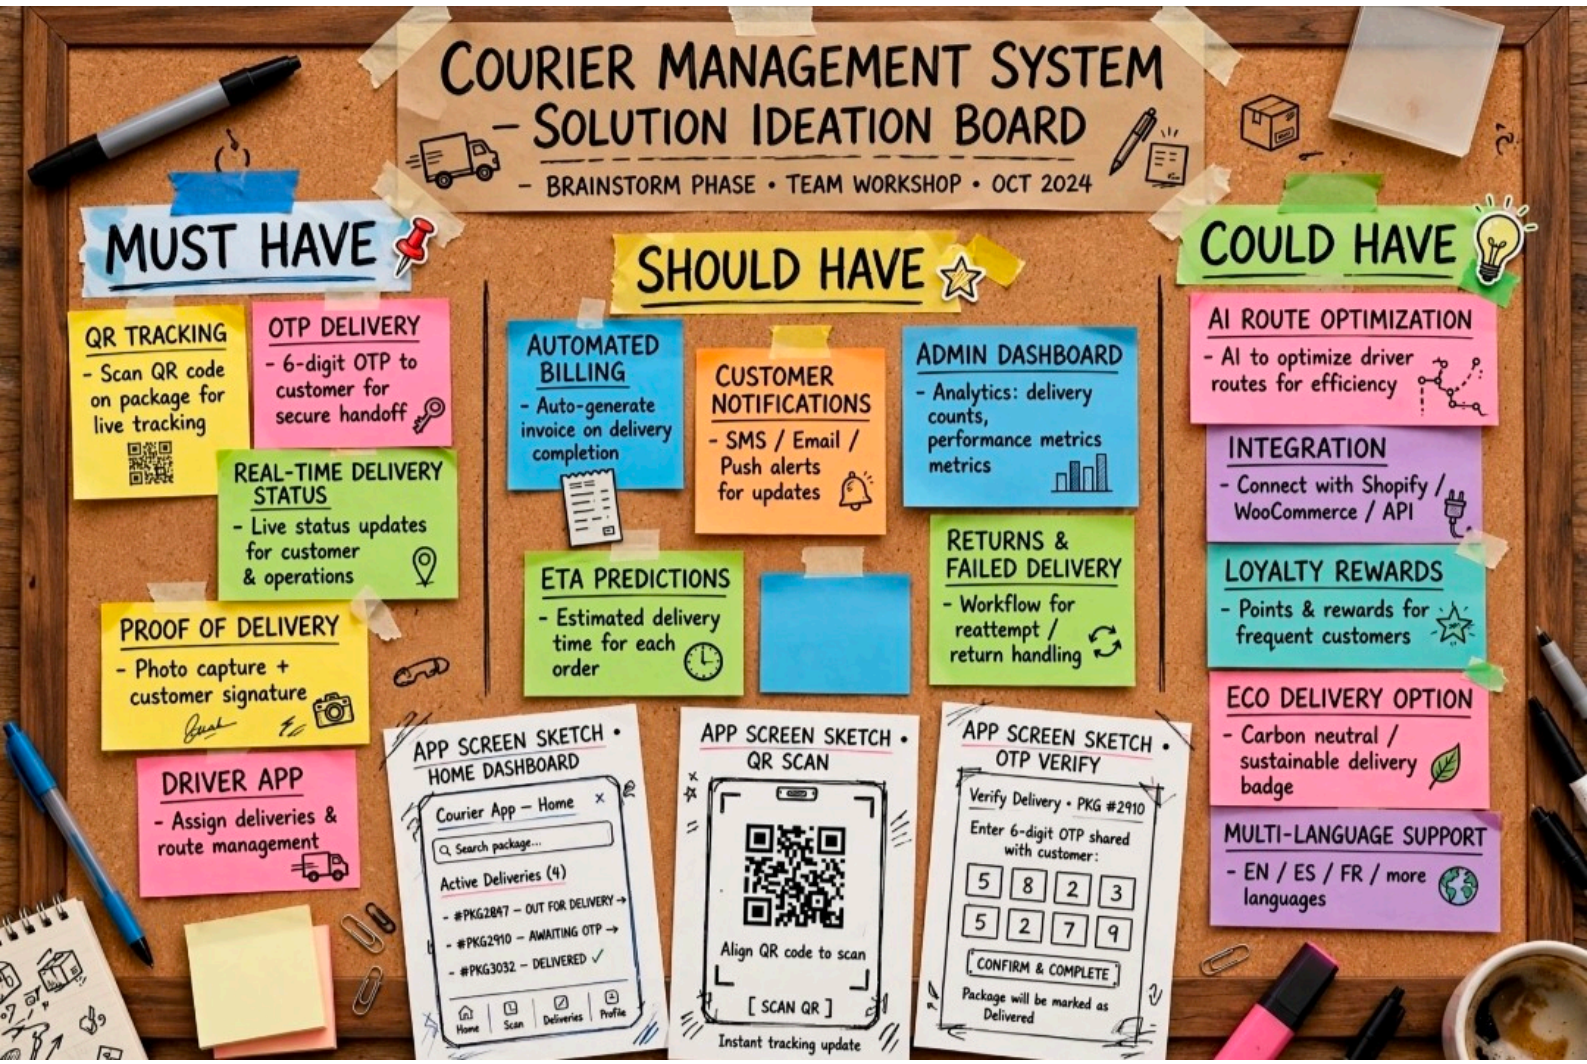

Frustrations:

- Hard to track fleet performance in real-time
- Manual reporting is time-consuming & error-prone
- High rate of delivery failures & complaints

Goals:

- Data-driven insights & analytics dashboard
- Streamlined operations & automated workflows
- Reduce costs & improve on-time delivery rate

Common Theme: Need → Visibility | Reliability | Efficiency
